Dear Paul

Thank you for contacting me to set out the work of the Sustainable Development Goals Network and to ask what we are doing at Glasgow to support these global goals.

I am pleased to provide you with a copy of our Council Strategic Plan available here <https://www.glasgow.gov.uk/CHttpHandler.ashx?id=40052&p=0>

It has been developed in consultation with the people of Glasgow and builds on Glasgow's progress and tackling its significant issues of poverty and inequality. It is focussed on creating inclusive growth, a thriving economy that creates jobs and investment, builds on our position as a world class city, helps us to tackle poverty, poor health and improves our neighbourhoods. It is also underpinned by a commitment to human rights and equality.

This approach seems to align closely with the principles and commitments of the SDGs. I attach a short table which highlights how our themes, commitments and actions align to the 14 of the 17 SDGs that seem most relevant to the city.

I trust this is helpful for the information you plan to make available on your website outlining what councils and others are doing that support the delivery of the SDGs in the next 10 years.

Yours sincerely
